

SETTING OUT JUST GOT UPGRADED

What's the deal?

Upgrade your old survey kit to a modern robotic total station solution, and we'll give you £4000 / €4500 back.

Our limited-time bundle gives you everything you need for a complete field-to-finish solution, including RTS673 total station, FieldLink software, targets, and kit setup.

Why robotic setting out?

SPEED	Quickly & easily mark points with the in-built laser pointer
ACCURACY	Accurate and efficient point set out, vast reduction in rework
PRODUCTIVITY	Reduce the rework, reduce wasted time, increase profits
EFFICIENCY	1-person operation frees up or reduces on-site personnel
ACCOUNTABILITY	Digital methods show proof of work quality & decision making
