

TSC5

CONTROLLER

Every Day Extraordinary

The **Trimble® TSC5 controller** is the dependable, modern, sixth-generation survey controller that enables you and your team to get the job done efficiently and accurately, every day, all day. This Android-based survey controller features a five-inch screen and full keyboard that ensures fast, efficient operation, even while wearing gloves. Rugged yet lightweight, with all-day battery power, the TSC5 is easy to carry and easy to use. Whether you're doing precision field data collection or layout, when combined with Trimble Access™ field software, the TSC5 offers the ideal blend of high performance and reliability you expect from Trimble.

Trimble.com/TSC5

High-value productivity for the jobs surveyors tackle every day.

Designed as a workhorse for practical, everyday tasks, the Trimble TSC5 survey controller combines outstanding performance and dependability so you can complete your work efficiently and accurately.

The ideal combination of performance and reliability.

- A bright, anti-glare, 5-inch touchscreen for finger, stylus, or glove helps you get more done in sunlight or low light conditions.
- Backlit alphanumeric keypad for effortless data entry, even in tough conditions.
- 12 physical function keys, plus the Shift and AGr key combinations, provide even more options to speed up common jobs.
- Long lasting battery, backed by a removable battery option, enables you to power through the whole day.
- Rugged and reliable, and built to military specs and IP65 rating, it can handle any environment or condition you encounter.
- Optimized to run the latest Trimble Access field software for streamlined survey workflows.
- Supports compatible external Trimble GNSS receivers, such as the Trimble R12i and Trimble R12, for high-accuracy positioning requirements.
- Add additional functionality with an optional user-replaceable Trimble EMPOWER module, such as a long-range radio or sub-meter GNSS receiver.

The TSC5 also features...

- High resolution 13 MP camera
- Fast and powerful Qualcomm 2.2 GHz processor
- 4 GB memory and 64 GB storage
- Worldwide WWAN with hot spot capability, Verizon certified.
