KOREC Group announces new distributor agreement with Soarvo

KOREC Group is delighted to announce that it has been named as the official distribution partner in the UK and Ireland for Soarvo.

Soarvo is a new cloud-based geospatial data platform for surveyors, drone operators, and mapping specialists. It is designed for seamless data visualisation and sharing, supporting a wide variety of sources and file formats, all hosted in one place.

This strategic move enables KOREC to bring Soarvo to the geospatial professionals who need it most—those seeking a platform capable of handling and sharing the high-quality, dense datasets captured by industry-leading sensors such as drones, mobile mapping systems and 3D laser scanners.

Eliminating the need for expensive, complex hardware and software, Soarvo presents this data in a rich, multilayered 3D geographic environment.

Mark Poveda, Managing Director – UK & Ireland, KOREC Group said:

"Partnering with Soarvo is a strategic move that complements our mission to provide top-tier geospatial solutions. We are confident that this partnership will drive mutual growth and deliver exceptional results for our customers."

Alan Browne, CEO and Co Founder – Soarvo said:

"This collaboration with KOREC will help Soarvo maximise its impact within the geospatial community. KOREC's expertise and support will enhance the overall customer experience, ensuring that users receive the full benefits of Soarvo's innovative 3D geospatial platform."

About Soarvo

Founded by Alan Browne and Paul Brodin—an engineer and a software developer with decades of geospatial experience—Soarvo is all about making geospatial data management simple and accessible for professionals and their customers across various industries.

The Soarvo team has been built to deliver innovative geospatial data solutions that help users unlock the potential of their geospatial data and enhance collaboration for a more connected world. Soarvo is on a journey to turn geospatial data into actionable insights, optimising real-world outcomes for businesses and communities alike.
